### WHAT IS LOCKS OF LOVE?

Locks of Love is a public non-profit organization that provides hairpieces to financially disadvantaged children in the United States and Canada under age 18 suffering from long-term medical hair loss from any diagnosis. We meet a unique need for children by using donated hair to create the highest quality hair prosthetics. Most of the children helped by Locks of Love have lost their hair due to a medical condition called alopecia areata, which has no known cause or cure. The prostheses we provide help to restore their self-esteem and their confidence, enabling them to face the world and their peers. **Mission Statement:** Our mission is to **return a sense of self, confidence and normalcy to children suffering from hair loss by utilizing donated ponytails to provide the highest quality hair prosthetics to financially disadvantaged children.** The children receive hair prostheses free of charge or on a sliding scale, based on financial need. Locks of Love is a non-religious, non-political, not-for-profit entity.

### Waxing Services versus shaving

Our waxing services are performed using the World Renowned French Depilatory wax line Cirepil. Cirepil is versatile because it works well with all skin types and removes hair effortlessly. Although waxing is a good alternative to shaving it may temporarily irritate sensitive skin. Waxing is an excellent alternative to shaving because it helps keep your skin smooth longer than shaving. Shaving only removes hair at the surface, while waxing removes it from the root under the skin and it takes longer to grow back. If you wax you will save yourself time and effort to keep beautiful, beautiful skin. At Sensational Styles & Spa Inc., we provide you with privacy, comfort and care. We are sure you will be happy when you leave! If you choose to shave ~Chin ~Sideburns ~FullFace~Back~ Chest~FullArm~ UnderArm~Tummy~ FullLeg~LowerLeg ~Bikini~ you may be shaving every day as opposed to every 2-4 weeks with waxing. Waxing is like skin care. All Cirepil products are gentle to the skin and will leave your skin feeling soft and smooth for weeks. Give us a call for your waxing service and take advantage of the coupon we are offering below. We are here because we care!

Waxing After Care~ Firma Derm® is a fast action antiaging, firming and moisturizing emulsion containing anti-oxidants (Vitamin A, E, & C) for rapid repair and reversal of skin damage caused by aging and environmental stresses. The antioxidant shield tissues from destructive free radicals, slowing wrinkling and premature skin aging. The result is a younger, smoother, firmer looking skin with lasting results.  
**Method of Use:**  
 For Face: After cleansing and toning, gently massage Firma Derm® until thoroughly absorbed. For Body: After shower or bath Firma Derm® smooths your body with a blanket of age-fighting and moisturizing ingredients.  
**Active Ingredients:**  
 Aloe Vera -Used for soothing & healing, and promotes unblemished healthy skin. Vitamin A -Containing 500,000 i.u.'s of this high potency anti-oxidant; Vitamin A prevents dryness and aids in moisture retention. Retinyl-A

(Vitamin A) also calms sunburn, aids in renewal of skin cells aged and damaged by environmental stresses. Vitamin A also shields the skin from destructive free radicals. Vitamin C & E -Both are used as anti-oxidants to aid in firming and toning. Ginkgo Biloba -Aids in faster penetration into the dermis & intensifies firming benefits in combination with the Vitamin C.

**Benefits:**

Vitamin A supports cellular renewal and the production of collagen (the skins major structural support). Vitamin A, as a primary antioxidant sweeps out and neutralizes free radicals (unstable oxygen molecules responsible for breakdown of cells that precedes aging and disease). Vitamin A is significantly responsible for the production of new cells and the maintenance and repair of mucous membranes; helps fight acne and premenstrual skin eruptions.

**Vitamin A** helps the body resist infection, form pigment, and build and maintain collagen, and elastin, strengthening the skin and capillary walls.

**Retinol A**, when added to skin creams, attracts moisture, causing the layer to swell slightly. When used regularly it can reduce the consequences of sun damage and may help the body rebuild collagen in the skin.

Like most of the population, our water sources are treated with chlorine. Chlorine-treated water is drying. Keep your skin moisturized with products that truly penetrate the skin such as those containing substantial amounts of Aloe Vera.

Application of creams truly rich in aloe vera will put an end to stretch marks (usually caused during pregnancy).

**Aloe Vera** is used in a number of hospitals to encourage new skin growth after surgery and also to heal burns indicating that it is great to heal sunburns as well!

**Vitamin E** is a highly moisturizing oil, protects from ultraviolet rays, reduces fine lines and wrinkles and delays the aging process; helps heal scarring and wounds and is a weapon against anti-aging.
