Winter's Essential Vitamin Treatment

Pharma-C Serum®, a 10% Vitamin C facial concentrate treatment, drastically reduces the appearance of wrinkles, fine lines, and sagging skin by actively promoting collagen and elastin formation, the building blocks of youthful skin. The Magnesium Ascorbyl Phosphate form of Vitamin C in this product is the only stable source of Vitamin C that has been proven to rapidly absorb into the skin and promote the formation of collagen. Use once a day AM or PM. Allow to penetrate for 60 seconds. Apply a Pharmagee moisturizer of your choice on top of Pharma-C Serum®.
